

## Day 21 - The disused line at Huanan

This is the first of two reports from Huanan - a bit of nostalgia for those who saw it working.

Views of the old line from beyond Km 2 at Huanan via Xiahua to Tuoyaozi

Bridge in need of repair

Track bed barely visible

Rails no longer in place

Another bridge needing repair

Looking towards Xiahua

Looking from Xiahua towards Huanan

Watering point with the station behind

Watering point - a Y goes off right here

Old coal wagons (c. 30) and watering point

Maker's mark on an axlebox no longer legible. Does anyone recognise this?

Coal wagon on old logging bogie

Elaborate station decorations

Rail marked 15 (symbol) 64

Tuoyaozi looking towards the passing loop

Tuoyazi looking towards Lishin

Tuoyazi looking towards Lishin

Tuoyazi looking towards Xiahua

Tuoyazi looking towards Xiahua

End of village towards Lishin looking  
back towards Xiahua

Bridge over stream towards Lishin
